DETAILED ACTION

Claim Objections

1. Claim 11 is objected to because of the following informalities: in claim 11, line 10, "a piercing edge" should be -- the piercing edge --. Appropriate correction is required.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 11 and 17-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Schellenberg et al. (WO 02/40360) in view of Weiteder (6,041,968).

Schellenberg et al. disclose, in figs.1 and 2, a pouring out closure comprising a flange 1 for welding onto a combipack 11 of a container sealed with a foil material; a combined lid and pouring nozzle 2 rotatable horizontal on the flange, said flange having a projecting rim 25 including means 18 for clipping the combined lid and pouring nozzle onto said projecting rim.

Schellenberg et al. do not disclose the pouring out closure comprising a piercing edge arrangement.

Weiteder teaches, in figs. 4-6, a pouring out closure 5 comprising a piercing arrangement 3B.

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the Schellenberg et al. pouring out closure with a piercing edge arrangement and a foil seal without a gripping tab, as taught by Weiteder, in order to automatically punch out the foil seal when in the first time opening the lid from the pouring nozzle.

Allowable Subject Matter

4. Claims 12-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments with respect to claims 11 and 17-20 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
